DrumSista Atlanta Pride Performance, June 2004

1. What was positive about the * Pride performance? What did you most like about <u>your</u> contribution to and participation in the group?

2. What was problematic about the Pride performance? What do you think would have made the performance better? What do you think that <u>you</u> could have contributed personally to make it better?

3. What are some general things that you feel hinder this group from being the best that it can be?

* I am referring to the Pride performance as a singular weekend performance because it was 1 contractor although I am aware that you all drummed several times.

Please feel free to talk about each performance activity as you need in your evaluation for the meeting.

I will bring a detailed accounting of expenditures and money received. I will contact Dale and have a discussion regarding payment of the scratch on her truck.

Charis Circle Retreat

Sunday, March 16 from 12:30 - 6:30

@ 1904 Monroe Drive (across from the Red Cross Building)
This is Sharon Sanders office, not Marlene Johnsons office.

BYOB or BYOS (Bring your own beverage and snack for break)
Bring your check for $30:00, made out to Charis Circle

Marlene asks that we consider the following questions as we prepare for the retreat. The reference is race, class or gender tensions in groups you have worked in.

1. Think of things that did not work in previous groups you have been in. What negative impact did this have on the group's functioning?

2. What worked or felt positive in groups in your previous experience?

What fears do you bring to the table?

At the Charis Circle meeting on Monday, we affirmed and agreed that all circle members would contribute $30.00 for the retreat even if you do not attend .

See you all on Sunday. Anne

Analysis of Queer Experiences
in the South. What does it mean to be Queer in the South

June 25-27

Use those reflections to create more effective strategies for challenging the oppressive power structures which we experience here.

Space for scholars, activists & cultural workers to analyze our experiences in the south in order to better understand how the history of the region and the history of queers in the South affect our lives today.
